

My name is Marlene Portras. I live and work in Regina in real estate development and management. I have been involved with SBC since I was born. Camp started in the backyard of my grandparent's farm. As a family we lived and breathed camp — as campers, workers and supporters. In the late 80's to early 90's I volunteered as the camp board secretary for more than 10 years. SBC has a special place in my heart and the hearts of my family. It is a place where God works magic in the lives of his children- young and old, campers and staff — and I hope to participate more actively and am excited to be a part of that work no matter what my role.
